

- **Designing Work Spaces Of The Future**
MILK Conference
 - **Brussels, 16 October 2003**

- **e-Locus: designing workspaces
integrating the individual**
 - **Irene LOPEZ DE VALLEJO**
 - **E-Locus Project Manager**
 - **Fundacion TEKNIKER, Spain**

E-Locus Cluster

- **9 projects – 81 organizations:**
a natural workspace design community of interest
 - **ANGELO**
 - **DIVERCITY**
 - **HUMANTEC**
 - **IDIA**
 - **SANE**
 - **TOWER**
 - **VIEW OF THE FUTURE**
 - **WINGS FOR SHIPS**
 - **WORKSPACE**

Challenges

- **Motivation**

putting technology in service
of the end user!!!

Challenges

- **Cluster Organisation**
 - - Network(ing) strategy
 - - Detect new trends/needs

- **HOW?**

Multidisciplinary

Sharing

Integration

Synergy

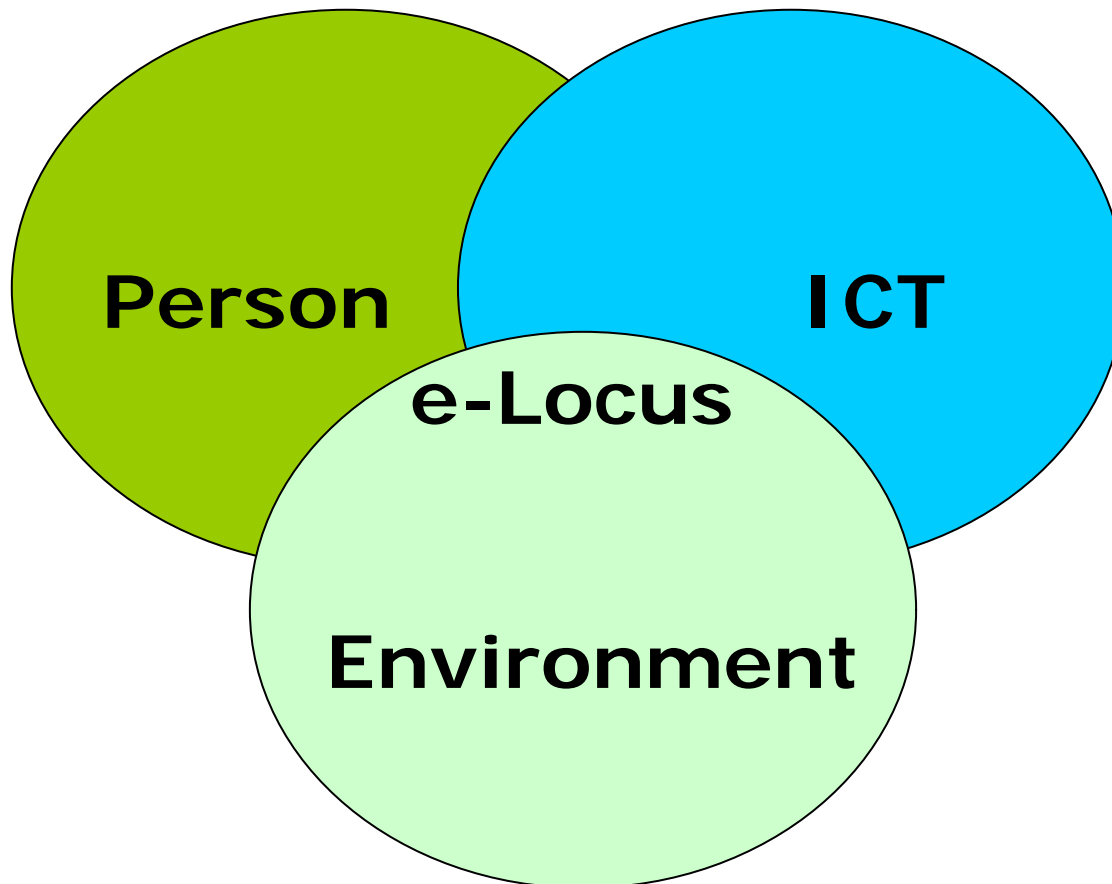

Objectives

- **Type of workspace solutions developed in the European R&D area**
- **How take human factors into account**
- **Support of the end user at work**

The context

Conclusions

- **Creating a constituency**
- **Integration**
- **Piloting**
- **Commercial development**
- **Evolution**

Terra Incognita

- **Intangibles real enablers of future workplaces?**
- **Perception of soft factors at business level as key driver?**
- **New intelligent technologies: enhancer or barrier?**

- Thank you!!!
